EDUCATION

Bachelor of Technology (B.Tech) – Computer Engineering

Institute of Infrastructure Technology Research and Management (IIT-RAM)

2024 – 2028

CGPA: 8.65 / 10 (Till 2nd Semester)

Class 12th – Gujarat Board

Akshar Jyoti High School | 2024

Percentage: 77.7%

JEE Main 2024

Percentile: 97.73 | CRL Rank: 35,670 | GEN-EWS Rank: 5,730

TECHNICAL SKILLS

- **Languages:** C, Python
 - **Web Technologies:** HTML, CSS, JavaScript
 - **Backend:** Node.js
 - **Database:** MongoDB, MySQL
 - **Tools:** Git, GitHub, VS Code
-

PROJECTS

1. Kisan Setu– Farmer to Consumer Platform 🌾

Tech Stack: HTML, CSS, JavaScript, Node.js, MongoDB

- Developed a responsive web platform connecting farmers directly with consumers
 - Built RESTful APIs using Node.js and integrated MongoDB for product and order management
 - Implemented blockchain-based product traceability for supply chain transparency
 - Enabled B2B partnerships and direct farmer-to-consumer sales, reducing dependency on middlemen
 - Designed as a mission-driven initiative under TechTitans to empower rural farmers
-

2. Smart Payment Tracker

Tech Stack: HTML, CSS, JavaScript

- Developed a web-based financial management system to track borrowings and lendings
 - Implemented features to record transaction history and monitor outstanding balances
 - Designed an intuitive interface for easy financial tracking and updates
 - Improved transparency in managing personal financial records
 - GitHub: <https://github.com/Devvasanka123/Smart-Payment-tracker>
-

3. MedConnect – Healthcare Diagnosis Support System

Tech Stack: Node.js, MongoDB, JavaScript

- Built a full-stack platform enabling direct patient-doctor communication
 - Implemented real-time chat and video consultation features
 - Integrated location-based services to suggest nearby doctors
- Developed backend services for user profiles, appointments, and consultation records
 - Enhanced accessibility to healthcare services through technology

CERTIFICATIONS

- **Artificial Intelligence Workshop – Techfest 2025, IIT Bombay**
 - Gained exposure to core AI concepts and practical applications
- **Mission Upskill India – AI Impact Summit 2026 (HCL GUVI)**
 - Explored real-world applications of Artificial Intelligence
- **Web Development Training – Internshala (2025)**
 - Learned HTML, CSS, and responsive web design fundamentals

OBJECTIVE

Aspiring full-stack developer with strong foundations in web technologies and backend systems, seeking internship opportunities to build scalable real-world applications and gain industry experience.
